To Whom It May Concern:

On behalf of Alzheimer's Los Angeles, I am pleased to recommend Society for American Baseball Research (SABR).

Society for American Baseball Research (SABR) has been a strong partner of Alzheimer's LA for the past two years. SABR has worked closely with Alzheimer's LA to deliver the *BasebALZ Program*, a reminiscence therapy program that uses baseball as a topic to invoke and discuss memories of participants with Alzheimer's disease or other types of dementia.

SABR's work is invaluable in addressing the overwhelming unmet needs of the vulnerable older adult population in Los Angeles. SABR has demonstrated the capacity, expertise, leadership and commitment necessary to successfully deliver on any project or program. The facilitators from SABR has shown much passion and dedication towards the Alzheimer's cause and continuously expand their knowledge on how to communicate in a compassionate way with the program participants. The BasebALZ program has made an immense impact on our clients who are living with Alzheimer's disease or other dementias and their family care partners.

I am very pleased to write this letter of recommendation. If you need more information or have any questions, please do not hesitate to contact me at 323-930-6271, or by email at aoh@alzla.org.

Sincerely,

Anne Oh
